

BRYAN ACCEPTS

The Nomination for President on the Populist Ticket.

TALKS ON MONEY QUESTION

For the First Time, But Evades the Issue—Says the Pops Should be More Pronounced Than Ever Against the Republicans—The Usual Harangue.

TOPEKA, Kansas, Aug. 23.—William J. Bryan, replying to notification by the Populist notification committee of his nomination as presidential candidate, said, in part:

"Mr. Chairman and Members of the Notification Committee:—In accepting the presidential nomination which you tender on behalf of the Populist party, I desire to give emphatic recognition to the educational work done by your party. The Populist party, as an organization from which they sprang, have done much to arouse the people to a study of economic and industrial questions. Believing as I do that truth goes not in seclusion, but in the open field, and that it thrives best in the sunlight of full and free debate, I have confidence that the discussion which your party has compelled will aid in reaching that true solution of pending problems toward which all honest citizens aim.

"I desire also to express my deep appreciation of the liberality of opinion and devotion to principle which have led the labors of your party to enter the ranks of another party in the selection of a candidate.

Grateful for Confidence.

"While I am grateful for the confidence which the Populists have expressed in me, I am not vain enough to regard as personal their extraordinary manifestations of good will. The ties which bind together those who believe in the same great fundamental principles are stronger than ties of affection, stronger even than the ties of blood and co-operation between the reform forces is due to the fact that Democrats, Populists and Silver Republicans take the side of the people in their contest against greed and against the application of Jeffersonian principles to the question immediately before us.

"In 1896 the money question was of paramount importance, and the allies in that campaign united in the demand for the immediate restoration of silver by the independent action of this country at 16 to 1, the ratio which had existed since 1834. They were defeated, but that did not end the discussion. The Democrats were defeated in 1888, but that did not put an end to tariff reform. The Republicans were defeated in 1892, but that did not permanently overthrow the protective tariff. Defeat at the polls does not necessarily decide a great problem. Experience and experience alone settle questions. If an increase in the volume of the currency since 1896, although unopposed by the Republicans, and unexpected, has brought improvement in industrial conditions, this improvement, instead of answering the arguments put forth in favor of bimetalism only confirms the contention of those who insisted that more money would make better times.

"The Republican party, however, while claiming credit for the increase in circulation, makes no permanent provision for adequate supply of standard money. It denies the necessity for more real money, while it permits national banks to expand the volume of paper promises to pay money.

Concealed Gold Standard.

"If the Populists felt justified in opposing the Republican party when it sought to conceal the gold standard tendencies under the mask of international bimetalism, the opposition would be more pronounced in proportion as the Republican party more openly espouses gold monometallism.

"In 1898 the reform forces charges the Republican party with intention to retire the greenbacks. This charge, denied at the time, has been confessed by the financial bill, which converts greenbacks, when only redeemed, into gold certificates and extends new privileges to banks of issue. If a Populist opposed the Republican party when its hostility to greenbacks was only suspected, that opposition should be greater now since no one can longer doubt the purpose of the Republican party to substitute bank notes for greenbacks.

"It is true that the Populists believe in an irredeemable greenback, while the Democrats believe in greenback redeemable in coin, but the vital question at this time, so far as paper money is concerned is whether the government or banks shall issue it. There will be time enough to discuss the redeemability of the greenback when the greenback itself is saved from the annihilation that now threatens it. The Republican party is committed to a currency system which necessitates a perpetual debt, while the Populist finds himself in agreement with the Democrats who believe in paying off the national debt as rapidly as possible.

Belief in Income Tax.

"If belief in an income tax justified

Out in Kansas

lives a happy wife. She writes: "I have used Mother's Friend before two confinements. The last time I had twins, and was in labor only a few minutes. Suffered very little." The reason why

Mother's Friend

does expectant mothers so much good is because it is an external liniment, to be applied upon the outside, where much of the strain comes. It helps because the pores of the skin readily absorb it, and it comes into direct contact with and is absorbed by the parts involved. Morning sickness is quickly banished, and nervousness is kept completely away. The sense of dread and foreboding is not experienced, even during labor itself. Confinement is short and almost without pain. Recovery is quick and sure. Best of all, Mother's Friend benefits the unborn just as much as the expectant mother, and when the little one comes it will be strong, lusty and healthy.

Druggists sell Mother's Friend for \$1 a bottle. Send for our free book on the subject, daily illustrated.

THE BRADFIELD REGULATOR CO. ATLA TA. GA.

a Populist in acting with the Democratic party in 1896, what excuse can he find for aiding the Republican party now, when even the exigencies of war have not been sufficient to bring that party the support of the income tax principle? Populists believe in arbitration now as much as they did in 1896 and are as much opposed to government by injunction and the blacklist as they were then and upon these subjects they have as much reason for co-operation with the Democratic party to-day as they had four years ago.

"Democrats and Populists alike favor the principle of direct legislation. If any differences exist as to the extent to which the principle should be applied, these differences can be reconciled by experiment.

"Democrats and Populists agree that Chinese and other oriental labor should be excluded from the United States. "Democrats and Populists desire to so enlarge the scope of inter-state act as to allow the commission to protect both persons and places from discrimination and the public at large from excessive railroad rates.

A Labor Bureau.

"The Populists approve the demand set forth in the Democratic platform for a labor bureau, with a cabinet officer at its head. Such an official would keep the administration in close touch with the wage earning portion of the population and go far toward securing such remedial legislation as the toilers need.

"In 1896 the Populists united with the Democrats in opposing the trusts, although the questions at that time appeared like a cloud scarcely larger than a man's hand. To-day that cloud well nigh overspreads the industrial sky. The farmer does not participate in the profits of any trust, but he sorely feels the burden of them all. He is dependent upon the seasons for his income. When he plants his crop he knows not whether it will be blessed with rain or blighted with drought; he knows in spite of the wind will blow it down, or hail destroy it, or insects devour it, and the price of his crop is as uncertain as the quantity. If a private monopoly can suspend production and fix the price of raw material as well as the price of the finished product, the farmer, powerless to protect himself when he sells, is plundered when he purchases. Can any farmer hesitate to throw the influence of his ballot upon the side of those who desire to protect the public at large from monopolies?

"The fact that the trusts support the Republican party ought to be sufficient proof that they expect protection from it. The Republican party cannot be relied upon to extinguish the trusts so long as it draws its campaign contributions from their overflowing vaults.

Farmer Cannot be Deceived.

"The prosperity argument which the Republicans bring forward to answer all complaints against the administration will not deceive the farmer. He knows that two factors enter into his income, first, the size of his crop, and second, the price which he receives for the same. He does not return thanks to the party in power for favorable weather and a bountiful harvest, and he knows that the Republican party has no policy which insures a permanent increase in agricultural prices. Since he sells his surplus in a foreign market he is not a beneficiary of the tariff and since he produces merchandise and not money, he does not profit by the appreciation of the dollar. He knows that the much-vaunted prosperity, of which he has never had his share, is on the wane in spite of the unusual and unnatural stimulation which it has received during the last three years. He knows that each month of 1900 shows a larger number of failures than the corresponding month of 1899 and that there is already a marked tendency toward a decrease in the output of the factories. He knows also that discovery of gold, far from being able to raise the price of farm products, has rapidly as trusts and combinations have raised the price of the things which the farmer buys.

Appear Inconsistent.

"Our opponents have tried to make it appear that we are inconsistent when we desire a general rise in prices, and yet oppose an arbitrary rise in protected manufactures or trusts made goods. There is no conflict whatever between these two propositions. If a general rise in prices occurs because of a permanent increase in the volume of money all things adjust themselves to the new level, and if the volume of money then increase in proportion to the demand for money, the price level remains the same and nothing has been done with fairness to all. If, however, the rise is arbitrary and only affects a part of the products of labor, those whose products do not participate in the rise suffer because the purchasing power of their income is decreased. If a bad monetary system drags down the price of the farmers' products, while monopolies raise the price of what they buy, he burns the handle at both ends and must expect to suffer in comparison with those who belong to the classes more favored by legislation.

It is sometimes urged by partisan

Populists that four years more of Republican misrule would so aggravate economic conditions as to make reforms easier. "No one can afford to lay in making matters worse in the hope of being able to make them better afterwards, for in so doing he assumes responsibilities which he may not be able to remedy. No Populist, however sanguine, believes it possible to elect a Populist President at this time, but the Populist party may be able to determine whether a Democrat or a Republican will be elected. Mr. Chairman, the Populist convention, which your committee represents, thought it better to share with the Democrats in the honor of securing some of the reforms desired by your party than to bear the odium of remaining neutral in this great crisis or of giving open or secret aid to the Republican party which poses all the reforms for which the Populists contend."

Sawtell Could Do Anything.

Louisville Commercial: "The most versatile chap I ever saw," said the lieutenant, "was a private who was on duty in Manila. His name was Sawtell. There seemed to be nothing on earth that he couldn't do or hadn't done at some time.

"One day it happened that an officer in the garrison wanted his hair cut, and the regular company barber was not to be found—out on furlough, or something. Sawtell volunteered to do the job.

"'Why, were you ever a barber?'

"'Yes, I was a barber for three years,' said Sawtell.

"A few days later the same officer took a notion that he wanted a certain dish prepared. He and the rest of us were tired of 'dead hen,' as the ubiquitous chicken is disdainfully called in the Philippines.

"'I can prepare it, sir,' said Sawtell, saluting.

"'Did you ever cook?'

"'Yes, sir; two years' experience, sir.'"

"And that dish was a wonder. Three days later the colonel's horse threw a shoe. The colonel wanted it replaced at once.

"'I'll do it, sir,' said Sawtell. 'I was a blacksmith for a year and a half.'"

"'He did it well, as he did everything. By this time the officers had begun to look upon Sawtell as a phenomenon;

therefore, when our captain developed a bad toothache, he sent for him.

"'Oh, yes,' said Sawtell, saluting. 'I studied dentistry two years.'"

"And he pulled the tooth.

"'Finally time was hanging somewhat heavily upon our hands, and one of the men suggested a concert of some kind. We went to Sawtell in a body to ask him if he knew anything about singing.

"'I was leading tenor with a minstrel show for a season,' he replied.

"As a result of his manifold accomplishments Sawtell was easily the most popular man in garrison. Whenever anything went wrong somebody said, 'Send for Sawtell,' and Sawtell always fixed it. Therefore, the colonel one day was deeply annoyed to receive a warrant from 'Frisco' for Sawtell's apprehension, accompanied by a letter stating that he was wanted in Nevada for a crime, I forget what. The colonel called Sawtell before him.

"'Sawtell, I have received a warrant for your arrest,' he said.

"'Yes, sir,' and Sawtell saluted.

"'You have become a valuable man here, and I hate to lose you,' said the colonel, 'particularly as you will have to go to prison.'"

"'Oh, that's all right, sir,' said Sawtell. 'I've spent four years in prison.'"

"I challenge any one to produce that man's equal for versatility," the lieutenant concluded.

WARM WIRELETS.

Fire is reported to threaten the town of Mulvane, Kansas, with destruction. The Wichita fire department has been called upon for help.

Announcement is made of the organization of the National Starch Company, with a capitalization of \$13,000,000, of which \$10,000,000 will be issued.

Gustave Paul Cluz, a minister of war under the commune, died yesterday at Toulon, of pneumonia. He had a remarkable career of adventure.

A. Shallenberger, of Alma, Neb., was Thursday nominated by the fusionists of the Fifth Nebraska district for Congress, to succeed R. D. Sutherland, on the fortieth ballot.

The National Negro Business League, made up of delegates from about twenty-five states, assembled at Boston, Thursday. The principal speaker at the session is Booker T. Washington.

Nathaniel Harrison Harris, a brigadier general on General Lee's staff, and formerly of Mississippi, died at Malvern, county of Worcester, England, last night. Mrs. John Hays Hammond is his niece.

William M. Johnson, the newly appointed first assistant postmaster general, arrived in Washington yesterday, and took the oath of office. Mr. Johnson will not begin his new duties until the latter part of September.

Charles H. Tweed, level adviser of the late Collis P. Huntington, announces that the will of the late financier will not be made public at present, but will be filed for probate to-day. An abstract of the will, prepared by Mr. Tweed, will be given out to the newspapers this afternoon.

The population of Jersey City and Hoboken, N. J., has been made public by the census office. Jersey City has a population of 208,433, against 162,003 for 1890, an increase of 43,430, or 26.64 per cent. Hoboken's population is 59,364, against 43,648 for 1890, an increase of 15,716, or 36.01 per cent.

A special to the Chicago Times-Herald from Asheville, N. C., says a girl baby has been born to Mrs. George C. Vahderbilt, in Biltmore House. Mr. Vanderbilt announces that her name will be Cornelia Stuyvesant. The little stranger is heiress to a fortune of \$30,000,000.

Omaha, Neb., is the first city thus far counted in the twelfth census to show a decrease in population during the past decade. The count of the population of Omaha just completed shows 12,555. The population in 1890 was 14,452. This indicates a decrease of ten years of 37,397, or 26.53 per cent.

Edward E. Balch, assistant cashier of the Omaha National Bank, was assaulted in his berth on the Chicago & Northwestern road, near Boone, Iowa, early Thursday, and robbed of \$130—all the money he had on his person. On the arrival of the train in the city he was removed to his home. He is still unconscious, but will probably recover.

A special to the Journal and Advertiser from Providence, R. I., says: Jas. Stillman, president of the National City Bank at New York, has announced the engagement of his daughter, Miss Isabel Goodrich Stillman, to Percy Avery Rockefeller, son of William Rockefeller, president of the Standard Oil Company. Percy Avery Rockefeller was graduated from Yale this year. He was president of the University football association.

A Life and Death Fight.

Mr. W. A. Hines, of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5.00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1.00. Trial bottles free at Logan Drug Co.'s drug store.—4.

If Baby is Cutting Teeth

Be sure you use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gum, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

CABELL COUNTY

In Line, and Will, in All Probability, Elect the Entire Republican Ticket Democrats Disheartened in Wayne. Special Dispatch to the Intelligencer.

HUNTINGTON, W. Va., August 23.—The prospects for the Republicans winning a great victory were never better in Cabell county. Thus far all the nominations for district offices have been of the most popular order—so much so, that there is a confident belief that every district in the county will be carried by the Republicans.

The county convention meets next Saturday, and while there is a sharp contest going in for the respective nominations, it has not reached the "boiling" stage, and it is certain that a good ticket will be selected, and there will be left no incurable sores.

It is practically certain that Dr. E. W. Grover and J. F. Bowman will be chosen as candidates for the house of delegates, making a strong legislative ticket, which at this time is of so much importance.

A prominent Wayne county Republican in the city to-day says that bets are being freely offered by Republicans on the election of one of the Republican candidates for the house of delegates in that county, and that no Democrat can be found who will take the bet.

Arrested for Forgery.

SPECIAL DISPATCH TO THE INTELLIGENCER.

PARKERSBURG, W. Va., August 23.—Beverly King, wholesale cattle man, arrested yesterday, charged with securing endorsements on notes by false pretense, gave bond to-day for trial before the criminal court. As soon as released he was re-arrested, charged with forgery. His liabilities are increasing rapidly, and will run into the thousands.

Shot While Asleep.

SPECIAL DISPATCH TO THE INTELLIGENCER.

HUNTINGTON, W. Va., August 23.—Before daylight this morning Frank Barber, it is said, slipped up to the window of the sleeping apartments of Mrs. Maggie Robinson and fired through the window, fatally shooting the woman. The ball passed entirely through her hips, and the broken glass cut several bad gashes in her flesh.

Crushed by a Trolley Car.

SPECIAL DISPATCH TO THE INTELLIGENCER.

PARKERSBURG, W. Va., August 23.—George Rowland, aged twelve, was run down and crushed to death by a trolley car here this morning. The boy was endeavoring to pull a dog off the track when a man snapped a whip at the animal, and in evading the blow the child fell in front of the car.

PITTSBURG EXPOSITION.

The few features this year.

In addition to what the management believes is the finest musical program, the largest number and widest range of exhibits and the most elaborate system of decoration it has ever provided for the patrons of the great Point show, it has arranged to have during the coming season a number of entirely new amusement features. Prominent among these is the Mexican Village, which will be placed on the east side of the vacant space south of the main building.

The village will be made up entirely of native Mexicans. They will typify the Mexican domestic character, the customs of their country, their social life and their progress in industry and art. The native dress will be retained in full, and the costumes of both sexes for all ages and for all occasions will be shown, from the breech cloth of the little toddler, copied after the style of the Indians, to the gorgeous creation of the dark-eyed womanita when she dances the fandango for the first time. A feature of the attraction will be the exhibitions of skill in native sports and athletic exercises, from fantastic sword and dagger play to lariat throwing by typical Mexican cowboys.

In mechanical skill will be a crystal mine in which the visitors may dig themselves in glassy labyrinths and seek for open passages only to meet themselves face to face until they stumble upon an outlet or are extricated by attendants.

A day in the Alps, another new feature, will be seen in Pittsburgh for the first time. An entirely new attraction, strictly up to date in every way, is being constructed, and will be found in the old spot, in the center of the opera promenade.

An attraction that will give pleasure to everyone is Jim Key, the famous educated horse. It is difficult to say too much of this equine marvel of the century. To believe all that is true of his wonderful powers he must be seen. It is only a small part to say that Jim reads, writes, spells, counts money, makes change with a cash register, and answers questions for everybody. These are not tricks; they are actual performances, and they are given in a way that obviates all chance for deception. In addition to unmistakable evidence of ability to reason, Jim has a thousand clever tricks and jokes, practically none of which have ever been attempted with other gifted animals.

Although his existence is such that Jim is prone to be constantly in good luck, and despite the fact that he is no longer young, he can reel off a mile in light harness, any time, in better than three minutes. His gait is that of a trotter, although he can pace, lope or canter. Indeed, Jim is as versatile in the matter of gait, almost, as he is in other things.

Mr. Fitzpatrick has under way arrangements for a number of special excursions on the various railroads, in addition to the regular concessions given to the Exposition by the local association of passenger agents.

Mechanical Hall, at present, bears a strong resemblance to some of Pittsburgh's great manufacturing plants. The sound of the saw and hammer, coupled with the din made by the boiler and tank maker, resound on all sides, and attract the attention of passers-by. The changes there are truly as great as in the main building, and the exhibits which will greet visitors this year are for the most part new.

Work is progressing rapidly on the platform and tables for the exhibit of the Philadelphia Commercial Museum, which will occupy one-eighth of the floor space of the building. It is regarded as one of the most important exhibits that have ever been presented at the exposition, and will be a subject of special study by the more advanced pupils of the public schools and other educational institutions. There has been considerable agitation in various large cities with a view to interesting merchants and the public generally in the necessity for something in the way of technical education in buying and selling the commodities of life.

The Philadelphia institution is the only one in this country aiming to accomplish that purpose, and no expense and no effort is spared to make it a complete reproduction of the museum. It is a certain sample of everything in the world that is available, together with historical embodying the place and cost of production, the cost of given amount at given points, extent of that purpose, and no expense and no effort is spared to make it a complete reproduction of the museum.
